

The Community Midwives of Brantford are looking for a General Registrant or a New Registrant to join our practice. We are offering a full time position to someone who is interested in settling in Brantford and contributing to the growth of midwifery in our area.

We have a 30-40% home birth rate and have excellent relationships at both our local Level II hospital and our Level III hospital, McMaster University Medical Centre, where we have full scope for epidurals and oxytocin. Our practice now has midwives working in different models of care; some job sharing and some providing primary care. We have great working relationships within the practice and are looking for a positive person to join our friendly and supportive team.

Brantford itself offers the quieter pace of a small city coupled with close access to Toronto, London, Guelph, and Kitchener-Waterloo; as we are in the heart of Southern Ontario. Low housing costs, excellent biking and nature trails, new University and College satellite campuses are just some of the benefits that make Brantford a great place to live.

Interested midwives should forward their resumes to:

Community Midwives of Brantford
84 Brant Ave., Brantford ON, N3T 3H1
