

**MIDWIFERY COLLECTIVE OF ESSEX COUNTY  
IS SEEKING A NEW REGISTRANT.  
( CONDITIONAL ON FUNDING)**

**START DATE: As soon as possible**

**OUR FOCUS: INNOVATION & COLLABORATION**

**Some of our accomplishments**

- L&D nurses at both practice hospitals collaborate as 2<sup>nd</sup> attendants
- Vulnerable populations served through innovative project, providing on-site midwifery care at urban community health centre
- Initiated inter-professional mentoring through cooperation with the Faculty of Nursing at the University of Windsor
- A waiting list
- A satellite office in Windsor
- An excellent working relationship with local OBs

**IDEAL CANDIDATE:**

A sincere and dedicated hard-worker, with a sense of humour and an interest in inter-professional collaboration. Must also be committed to balance – prioritizing quality care and sustainable life-style.

**CATCHMENT AREA: ESSEX COUNTY.** Essex County, including the city of Windsor, is the 4<sup>th</sup> most multicultural area in Canada, and can be traveled from one end to the other in under an hour. Our principle clinic is located in the town of Leamington, named the best place to live in Canada (*Moneysense Magazine 2006*) with a satellite office in Windsor. Leamington has the longest growing season in Canada, a beautiful national park and is about 30-45 minutes from Windsor. Windsor, Canada's southernmost city, is located across the river from Detroit, Michigan. Nearby, amenities include a world-class opera house, Zoo, art gallery, theatre district, symphony, major sports events, science center, and the world's largest African American History museum, among many more.

**HOSPITALS:** Hospital privileges are at the Windsor Regional Hospital ( level II) and Leamington District Memorial Hospital ( level I) with an obstetrician but no pediatrician. This practice offers full scope of care. Our home birth rate is growing and is anticipated to be high and working relations with the hospitals are excellent.

**MIDWIVES AT MCEC:** Andrea Cassidy.

**MODEL OF CARE:** This practice is working towards a shared care model, has a strong commitment to excellent community relations, and believes in balancing work and personal time. For the New Registrant year the model will be primary care. We are exploring and willing to develop inter-professional collaborative models of care. We serve both rural and urban client bases. This is your opportunity to participate in the development of an exciting newer practice and have direct input into the model of care.

**POSITION:** A new practice member will have some caseload with our waiting list but will also be responsible to help build base caseload further. The New Registrant position has the potential to become a long-term position with the right fit. Part time and/or full-time work are possible. Interested parties should have good communication skills, be flexible, have a sense of humour and be willing to help develop midwifery in this wonderful community.

**CONTACT:** Fax or email your resume and a cover letter explaining why you are interested in joining this practice. Also include three references. Applications will be accepted anytime. Interviews will be conducted at the AOM general conference in May.
