

Urgently Required! Locum short or longer term, practice partner full time or part time. Position can be modified to fit your needs. Prince George BC

Northern Midwifery Care (BC) currently has two practicing Midwives but urgently needs either locum relief or another Registered Midwife to join our practice. The request for Midwifery care far exceeds our abilities to provide care and we are regularly turning away clientele. This is a great opportunity for a RM to walk into a well established practice, full-time caseload available from March 1 2010. Offering equality, respect and fairness.
