

Locum/ Permanent General Registrant Position and New Registrant Position (pending funding approval)

Kitchener Waterloo Midwifery Associates (KWMA) has an opening starting June 1, 2010. This is a permanent position but a locum would be most welcome until a General Registrant is found. We are also looking for a New Registrant (pending funding approval).

We are a practice of 8 midwives who provide primary care and work in two teams. Our co-operative team environment allows us 3 day weekends off every other weekend, as well as 10 flex days per year and two months vacation time. KWMA adheres to consensus for clinical practice decision making.

We would welcome any midwife who demonstrates the professional work ethics of accountability, effective time management and respect for the principles of Ontario Midwifery and the personal ethics of loyalty, flexibility and understanding.

Our hospital privileges do not include full scope but area midwives continue to pursue this for our clients. Our practice encourages on-going educational and development opportunities by providing off call time and financial subsidy.

We are also in the exciting planning phase for an updated and modernized practice space. We look forward to carefully reviewing all applications and will acknowledge all submissions with personal follow up. Thank you in advance for your efforts.
