

Haliburton &
Bancroft
Midwives

We are seeking a New Registrant!

Are you a passionate midwife looking for a unique opportunity to provide care in a rural and remote setting? If you are enthusiastic about making a difference in a close-knit community and embracing the beauty of nature, we would love to hear from you! Pending funding approval, Haliburton-Bancroft Midwives is excited to add a new registrant to our team for 2024-2025.

About us: Our clinic has been proudly serving this rural community since 2008. Our catchment area spans an extensive region and borders on Algonquin Park. Our two clinic sites are in the village of Haliburton and the town of Bancroft. We have privileges at the Peterborough Regional Health Centre where we enjoy limited scope practice and excellent hospital relations. This hospital is 95 km away from our primary clinic and is outside of our catchment area. Traffic is light and the scenery and wildlife spotting opportunities are fantastic!

As a midwife in our practice, you will play a crucial role in offering exceptional care to our clients. We are looking for a team member who can:

- Demonstrate exceptional interpersonal and communication skills to create a cohesive team environment
- Recognize and address the individual needs of clients, yourself, and practice members as we evolve
- Show comfort and dedication to homebirth in rural/remote setting with a second birth attendant
- Embrace the unique demands and joys of rural life, including far-distance travel

Why join us?

This practice is uniquely situated within minutes of countless lakes and rivers and thousands of acres of natural space. Our home is also roughly a two hour drive from major centres like the GTA, Belleville, Barrie and Orillia. Our main clinic is in the beautiful village of Haliburton, and our other location is in the town of Bancroft. Our catchment area borders Algonquin Park. If you love the outdoors and the beauty and tranquility of nature, this may be a perfect fit. Our midwives can enjoy activities such as hiking, swimming, canoeing/kayaking/paddleboarding/white water paddling, snowshoeing, camping, downhill and cross country skiing and cycling while on call/after a clinic day.

We are looking for a midwife to join our Bancroft team. Midwives enjoy a caseload of 24 - 40 BCCs a year. We also recently began operating with schedule Q funding. There is potential for primary care or shared care work depending on preference. We have the potential to be quite flexible in terms of start date for the right candidate. We are hoping to connect with a midwife who would appreciate why we work here and the demands and benefits of our rural life.

We would love to hear from you!
