Practice

#### **NEEDED: MIDWIVES IN VANCOUVER**

**Have you heard about BC's new contract? In the BC model midwives direct bill MSP and we have a great new package-overhead, extended health and RRSP's. There is opportunity to be well compensated and make good income. I am happy to discuss details.**

I am looking for Registered Midwives who are the right fit to join my lovely established practice in the heart of Vancouver. Currently there is a full time caseload for 2-3 midwives. We have many repeat clients and word of mouth referrals.

We have had in the past a great schedule that allowed for work life balance and we support each other in taking vacations. Applicants are required to be currently registered (or able to become registered ASAP), and be eligible for the Privileges at BC Women's or St Paul's Hospital. I would like someone to start as soon as possible- if you want to work solo, be a team of 2, or Postpartum/ Lactation consultant midwife you are welcome to apply. I am happy to discuss options.

Pacific Midwifery is a well established practice located at the entrance of beautiful Granville Island in Vancouver. The office is easily accessible by car, bike, bus, aqua bus and has onsite underground parking. The clinic includes a large but cozy lounge area where we hold prenatal classes and we also have a lactation consultant on the team. We have a bright clinic room for seeing clients. There are plenty of amenities around the clinic like cafes, restaurants, market, theatres and the lovely seawall.

Our clinic coordinator works full time in the office and contends with the majority of the admin work, including billings, referrals, faxing, electronic records and scheduling clients. We use Oscar for electronic charting and SR fax.

We have a healthy, active home and hospital birth population. The midwives at Pacific support one another and willingly cover each other as needed.

If you are interested in joining the Practice of Pacific Midwifery then we would love to hear from you. Please email your interest with CV and/or questions to [pacificmidwiferypractice@shaw.ca](mailto:pacificmidwiferypractice@shaw.ca).

I look forward to hearing from you.

Terry Lyn Evans RM
